DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 1-8 and 16-23 in Paper No. 1, filed 9 January 2007 is acknowledged. Election was made **with** traverse.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joshua Povsner on 02/14/2007 to request an oral cancellation to the above restriction requirement, and resulted in the cancellation of claims 9-15.

REASONS FOR ALLOWANCE

Claims 1-8 and 16-23 are allowed .

2. The following is an examiner's statement of reasons for allowance: None of the prior art teaches or fairly suggests the claimed invention. The most pertinent prior art are Furusawa et al. (US 6,371,908), Ozawa et al (US 7,050,086), and Wang et al. (US 6,537,211). Specifically, while Furusawa et al. teaches the use of video endoscopic apparatus for fluorescent diagnosis to clearly visualize the observation image signals in an operation. Ozawa et al teaches an electronic endoscope system with a color-balance alteration process that reproduces an endoscope motion image on a TV monitor thus

enables a clearer observation. Wang et al teaches image-processing circuits that extracts the maximum brightness level and the minimum brightness levels from all pixels of the reference and fluorescent image signal. Neither, Furusawa nor Ozawa nor Wang teaches the calculation needed for all pixels when the number of counted pixels is not larger than a predetermines threshold number or for a part of the pixels selected from the reference image when the number of counted pixels is larger than said threshold number which increase the resolution while the speed for generating the observation image signal decreases, which enables detail observation of the subject by the operator. The Examiner finds no reason or motivation to combine the above references in an obviousness rejection thus placing the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional art of record, not discussed hereinabove, were cited in the international search report in the International Application relied upon for priority under 35 U.S.C. § 120, and are thus made of record, but additional copies of these references are not being supplied with this action.
